Practical
Prompting
A Hands-on AI Workshop

Are you unsure what to ask an AI tool?
or frustrated with unhelpful responses?
You're not alone!

Most people know AI can help, but few
know how to ask the right questions to
make it truly useful.

VALUE 32

*"Work Smarter,
Not Harder"*

This In-person hands-on workshop is your shortcut to mastering the core skill that makes all the difference: Prompting!

Whether you're writing reports, summarising documents, crafting content, or exploring creative ideas — the power lies in your questions. In this 2-hour session, you'll learn:

- How to **ask clear, targeted questions** that get results.
- What kinds of tasks AI can handle — from drafting emails to creating podcasts.
- How to **choose the right tool** for the job.
- How to **evaluate AI responses** for trust and usefulness.
- Why prompting is more than just typing a message — and how to make it part of your workflow.

A mix of learning and doing, with real examples, shared stories, and a practical take-home guide.

Learn to confidently write prompts that get the results you actually need, not just better spelling and grammar, but **smarter, faster, more meaningful outputs** from any AI tool you use.

EXTRA BONUS

Free digital prompt pack.

This workshop is perfect for:

- Professionals who feel left behind or unsure where to begin with AI.
- Team leaders who want to upskill staff and reduce the AI knowledge gap in their workplace.
- Business owners and freelancers ready to improve their productivity without hiring extra hands.
- Educators, marketers, or consultants wanting practical ways to use AI tools for planning, summarising, and content creation.
- Anyone who has ever thought, "I don't know what to ask," or "It just doesn't sound like me."

You don't need a tech background – just curiosity and a willingness to try!

CALLING EVERYONE WHO:

START HERE

Knows AI could make their lives easier – but don't know where to start.

Has a smartphone or computer but only uses it for basic functions.

Wants to feel more confident in using AI for real-world applications.
